## ENERGY SYSTEMS

### PORTER GAUD SCHOOL-CHARLESTON, SC

- **PROJECT**  
PORTER GAUD SCHOOL SOLAR  
THERMAL SYSTEM
- **LOCATION**  
CHARLESTON, SC
- **SCOPE**  
(4) 4' X 10' AET COLLECTORS  
(2) 80 GALLON DBS STORAGE  
TANKS  
(2) RINNAI 98HPI TANKLESS  
WATER HEATERS
- **INSTALLER**  
ECOBILT ENERGY SYSTEMS
- **COMPLETED**  
AUGUST 2010

Porter-Gaud students and faculty are now enjoying hot water in the school cafeteria provided by one of the earth's most plentiful renewable resources, the sun! This renewable energy system, along with the others we offer, not only reduce the amount of planet-warming greenhouse gases and other pollutants emitted into the atmosphere, but also generate tax-free savings year after year, hedge against rising energy costs, and reduce our dependence on unstable foreign energy imports.
