

ALTERNATE ENERGY
TECHNOLOGIES

SMART HYBRID SOLAR CONTAINER

SUSTAINABLE SOLAR TECHNOLOGY

BENEFITS

- **PRECONFIGURED** - Complete system with solar panels and mounts for rapid deployment.
- **MODULAR** - The flexibility to add more panels and more storage as needed.
- **COST EFFECTIVE** - Optimized for precise energy needs that reduce energy cost.

Self-Contained Hybrid Solar Solution

Renewable power generation in a self-contained modular format for increased efficiency and sustainability. Smart hybrid solar containers provides an integrated solution for various off-grid applications.

RAPIDLY DEPLOYED

Preconfigured solution that combines solar energy integrated with hot water storage.

MONITORING & CONTROL

Available with the cloud based portal which allows for remote monitoring and control.

SCALABLE CONFIGURATIONS

Augmentable based on demand to ensure optimal off-grid efficiency and reliability.

INCLUDES

- Solar Collectors
- Mounting Components
- Storage Tank
- Heat Exchanger Coils
- System Controller
- Data Logger
- Assembly Hardware
- Tubes & Hoses
- Plumbing Components
