

If an oil deposit was located on your property, wouldn't you want to draw it out? More solar energy hits the earth in one hour than all humanity can consume in a year; the sunlight hitting your roof can provide enough energy for your hot water needs year-round. An EagleSun™ System a tested and proven method that will allow you to harness this energy supply.

Your EagleSun™ System uses heat from the sun to provide a clean, renewable energy source that will give you comfortable, reliable, hot water, without the cost of traditional water heating.

Since 1975, Alternate Energy Technologies, and its predecessors, have designed solar water heating systems that produce 80 to 4,500 gallons of hot water a day. AET manufactures equipment that is affordable, reliable, maintenance-free and is rated highest in efficiency. These fully automatic systems are easy to install and may adapt to your current system. They are made of the finest quality materials for maximum performance and durability. Products and workmanship are 100% guaranteed.

Your Authorized Dealer will provide you with a job survey and site analysis to assure proper placement and Installation.

See the difference...Feel the difference...Make a difference

Designed to be maintenance free, your EAGLESUN™ System comes with a ten year manufacturer warranty guaranteeing you years of hassle-free, FREE Hot Water!

A Smart Investment:

- ◆ Why rent your monthly energy when you can **own a lifetime of free hot water?**
- ◆ Solar systems provide **energy independence**. Though energy costs continue to rise at increasingly rapid rates, you will be protected.
- ◆ Your EagleSun System will immediately **reduce your current energy expenses**, in some cases, up to 38%. The more hot water you use, the more money you save.
- ◆ Solar Thermal is recognized as **the most efficient renewable technology**.
- ◆ **Federal and State incentives, credits, and rebates are available** to reduce your installation costs. Some local utility companies even provide further incentives. (eaglesunsystem.com)
- ◆ **Take responsibility for improving the environment** for you and your family by taking advantage of a renewable energy source without sacrificing comfort.
- ◆ **Support the U.S. Economy:** Renewable Energy Companies are the fastest growing sector of the modern American economy.

Your EagleSun™ System is the only household appliance to pay for itself several times during its useful life. It will provide for your family's household hot water needs year round, even on cloudy days.

Let us help you put the sun in your pocket and you can keep the change!
